GP LRc lithium ion coin cell series

The right choice for true wireless earphones

Our GP LRc line of lithium ion rechargeable coins answers the high capacity needs for a small footprint for true wireless earphones (TWS). The LRc rechargeable coin cells proprietary design is the latest evolution from GP's miniature line up that commenced in 2004.

With GP's unique technology, the cell retains its original dimension even after repeated use allowing for small headphones designs.

			
Model	GP1258	GP1207	GP1458
Typical Capacity (mAh)	56	80	80
Rated Voltage (V)	3.6	3.6	3.6
Dimension (max)			
OD (mm)	12.1	12.1	14.1
HT (mm)	5.85	7.5	5.85
Max. Discharge Current (mA)	106	150	150
Max. Charging Voltage (V)	4.2	4.2	4.2
Max. Charging Current (mA)	106	150	150
